Campus Station Returns To Air

On last Monday evening, October 25, Campus Station WNTC inaugurated its regular broadcasting schedule for the school year 1948-49. In contrast to the station's initial opening last March, there was no special program. For the first time, the broadcast originated in the station's newly constructed studios behind the Crane Building.

The station is now on the air each weekday night from eight to eleven. However, as soon as hook-up is established with the Intercollegiate Broadcasting System, this time will be extended by one hour until midnight.
